THE CHARLEROI MAIL

VOLUME XXI—NO 110

CHARLEROI, WASHINGTON COUNTY, PENNSYLVANIA, WEDNESDAY, OCTOBER 13, 1920

TWO CENTS

FIREMEN HAVE CAMPAIGN UNDER WAY TO PURCHASE NEW MACHINE

Needs of Department Require More Modern Fire Fighting Equipment

ASK SUPPORT OF ALL CITIZENS

The Charleroi Volunteer Fire Department, about six weeks ago, inaugurated a campaign for the purpose of raising funds with which to purchase a new fire truck. The first stage of this campaign will end about the last of November, when another phase of the undertaking will likely be announced. It is the hope of the members that, with the aid of the citizens of the community, and borough council, to eventually raise sufficient funds with which to secure a modern and up-to-date fire truck, one which will be available for use in any part of the borough, and which will be equipped with all modern appliances.

The fire department has been a live factor in the affairs of the borough for many years, and entirely by voluntary effort has maintained a fire fighting organization which has done wonderful work, and protected the property of taxpayers in the community from the ravages of the fire demon. The original equipment was the horse-drawn hose wagon, which has served its day, and which in its time was sufficient for all needs. As the borough grew the demand on the fire company increased, and this resulted in the inauguration of a campaign on the 14th day of March, 1913, for the purchase of a fire truck. On the 14th day of November, 1914, the new truck was delivered. It cost the firemen \$6,400, all of which amount has not yet been realized by the department, as they were compelled to borrow the difference between the price of the machine and the amount secured in the campaign in order to pay for the truck. This balance is being gradually wiped out.

Subscriptions to this fund from business men and citizens of the borough amounted to \$2,265.00. For services rendered they have received \$435.00 and for prizes and benefits the sum of \$1,236.13, a total of \$3,536.31.

However, the town has outgrown the present truck and it is absolutely necessary to secure a machine of a more modern make, and one equipped with the triple combination of pump, hose and chemical. To secure such a machine, with a capacity of about 850 gallons of water per minute, will require approximately about \$15,000.00. This would equip the truck completely in all respects and its acquisition would permit the local company to handle any fire which might occur within the borough limits.

They have already received generous donations from John D. Berryman and the Elks Club, while the first phase of the new campaign now under way is expected to increase these contributions by several hundred dollars. In this new campaign Continued on page four.

PINE PROMOTION FOR CHARLEROI MAN

Ben J. Owens of Crest avenue, who has been the office manager for the Page Steel and Wire company at the Monessen plant for a number of years, has been transferred to the executive offices of the American Chain company at Bridgeport, Conn., and left for his new assignment Tuesday night. As a token of esteem the members of the office force of the Monessen plant presented him with a handsome gold watch and chain.

INTEREST INCREASES IN BOWLING LEAGUE

The bowling fever is gradually growing at the Elks Club, and the contests now on between the teams entered in the race promise to become more and more interesting as the season advances. The games are being witnessed by large assemblies of members, who "root" with vigor for their favorites.

Last night Capt. Brown's "Misfits" won two out of three games from Capt. Vernon's "Devil Dogs," in spite of the fact that the latter team was reinforced by having Fred Brady's famous stag hound "Peton" on hand. Fred Pieper gave a wonderful exhibition of bowling in the last game for the "Devil Dogs." Tonight Capt. Arch Osborne's "Lunks" play Capt. Walter Campbell's "Oilers," and it promises to be a close and interesting contest. The scores of last night games were as follows:

DEVIL DOGS			
Vernon, Capt.	119	105	115
Pieper	120	86	152
Myers	78	86	93
Wolf	85	90	
Brady	114	106	112
Irose			117
Total	516	473	589
Total pins—1,578			

MISFITS			
Brown, Capt.	99	114	102
Phillips	109	141	110
Worthington	93	116	95
Bailey	112	117	107
Connell	106	131	100
Total	519	619	514
Total pins, 1,652.			

MISSION STUDY CLASS HOLDS FIRST MEETING

The regular meeting of the Mission Study class of the Ladies' Missionary Society of the Methodist church was held last evening at the home of Mrs. T. R. Eagye. The object of the class is to obtain a thorough understanding of the year book. Discussion was led by Mrs. T. L. Pollock. The next meeting will be held in two weeks at the home of Mrs. Greenlee.

Second Christian Endeavor Rally to Be Held in Charleroi

The second Washington County Christian Endeavor Rally will be held at the Washington Avenue Presbyterian Church, Charleroi, Pa., Friday evening, October 15 at 7:45 o'clock. There will be two speakers well known for their interest and activity in young people's work in the state. Rev. Raymond M. Kistler, pastor of the Southside Presbyterian Church, Pittsburg, will speak on "The Last Message" and Mr. A. H. Brownell, Vice President of the State Christian Endeavor Union also of Pittsburg, will discuss "State Aims and Standards." It is assured that both these men will bring splendid messages. The rally will be opened with a song service and special music which will also be a feature. The meeting will be followed by a social hour in the Sunday School room of the church. The young people of the valley and neighboring communities are cordially invited to attend. There is no doubt but that all will receive added inspiration to carry on their winter's work.

BIG AIRPLANE HAS ARRIVED AT MONESSEN

The big Lincoln tourabout airplane in charge of Aviator David Ruse, arrived in Monessen shortly after one o'clock Monday, from New Philadelphia, Ohio, where it had remained Sunday night. The plane is said to be one of the best ever brought to the Monongahela valley, and is the property of Monessen people, who will make exhibition and passenger flights. Aviator Ruse brought the machine from Lincoln, Neb., where it was manufactured, to Monessen making good time all the way.

The plane landed in a field back of Monessen, near one of the borough school houses, and this fact almost broke up school sessions at that particular building. The pupils could not be kept in school, and the aviator complained they were continually in the way. Conditions became so bad on Tuesday that on request of the school authorities the landing place of the machine was moved to near Linn's grove back of Belle Vernon, from where flights will be made in the future. The machine will carry two passengers as well as the pilot.

TWO DEATHS ARE DUE TO MINE ACCIDENTS

Mine accidents claimed the lives of two men in the eastern end of the county recently. Angelo Scocagragia, 31, an Italian, was killed in the Vesta mine No. 5, when he fell between cars. Sam Glitz, aged 50, was crushed between the mine rib and a coal car in the Ellsworth mine last week, when a car jumped the track. He was taken to the Mercy hospital, Pittsburg, where he died. Both fatalities will be investigated by Coroner Greenlee.

The wedding of Miss Bertha Bukalo and Remy Sechez, both of Charleroi took place this morning at 9:30 in St. Jerome's Catholic church.

It isn't how much you work, but how you work that makes the boss manager friendly.

LADY MACCABEES HOLD HALLOWEEN PARTY

An enjoyable Halloween party was held last evening at the home of Mrs. and Mrs. Hartley Jones, 727 Fallowfield avenue, under the auspices of the Lady Maccabees. About forty members and friends were present. Out of town guests were present from North Charleroi, Fayette City and Monessen. The house was tastefully decorated. Lunch was served by the hostess assisted by her daughter Thelma.

ONE YEAR GIVEN TO DRUNKEN AUTOIST

Edward Kittell, an employee of the Lincoln Gas Coal company, at Lincoln Hill, near Washington, who on May 2nd last ran down and killed Glenn C. Reed on the National Pike west of Washington, was on Monday his plea of guilty to the charge of involuntary manslaughter, sentenced to pay the costs, a fine of \$1 and to undergo imprisonment in the county jail for one year. He had been indicted for manslaughter.

His counsel made a plea for a parole and presented petitions largely signed, but the court stated the facts did not warrant the court granting a parole, at least at this time. As counsel for the defendant stated the one besetting sin of the defendant is that he at times gets under the influence of liquor. He was drinking the night he ran into Reed and was also driving at a high rate of speed.

Judge McIlvaine stated in passing sentence that a man who got drunk should not get into a car. As to granting a parole the court said it a civil action were satisfied that the persons who might have grounds for a civil action were satisfied; also, that the defendant would have to surrender his auto license.

QUIETLY MARRIED AT BEAVER, PA.

Miss Frances Guswiler, daughter of Mr. and Mrs. Frank Guswiler, of Roscoe, and A. S. White, son of Mr. and Mrs. Phillip White, of Charleroi, were united in marriage September 11th, at Beaver, Pa., by Rev. Wright of the Methodist church. The ceremony was witnessed by Mrs. A. C. Story of Neville Island, sister of the groom. The bride is a teacher in the Monessen schools, having taught there for the past four years. During the past summer she attended school at Pitt, taking post graduate work. The groom is a former service man, being discharged in July. He was a Sergeant in Co. I, 27th Infantry, Regular Army, having served two enlistments and one year reserve, the last two years being on duty in Verkhne Udinsk, Siberia. It required one and one-half months for him to reach the Philippine Islands, landing there St. Patrick's Day. He then set sail for the United States, arriving in San Francisco July 10, where he was honorably discharged. He is an expert rifleman and sharpshooter and has certificates for both. He had not been in the United States for five and one-half years, three and one half years being spent in Japan, China and Philippine Islands, and two years in Siberia. The young couple will make their home with the groom's parents.

Another Meeting to be Held in Pittsburgh in Three Weeks

DIFFERENCES BEING ADJUSTED

Results which it is believed will eventually pave the way for the improving of the Speers-Allenport road were secured on Tuesday at the Public Service Commission hearing held in Charleroi, and continued later at Allenport, at which the differences between the commissioners of Washington county and the Pittsburgh Railways company regarding dangerous crossings between Speers and Allenport, at points where the street railway company lines crosses the public highway, were presented.

The commissioners are making an effort to have all the present crossings removed, so that the highway which is one of the most important in the Monongahela valley, can be permanently improved. In fact, the state highway department has insisted that all of these crossings must be removed before it would undertake to build the highway, and it was with this end in view that representations were made to the Public Service Commission by a number of citizens living along the line of the proposed improved road that brought about the hearing. The railway company had heretofore failed to meet the demands of the commissioners.

At the Tuesday conference the problem was thoroughly discussed and adjournment was taken with the understanding that a further hearing will be held by the commission in Pittsburgh about three weeks hence, when final details will be presented to that body.

After going over the matters in dispute at the borough building on Tuesday, the officials and others drove over the road to Stockdale, where dinner was served by the Pittsburgh Steel Products company. In this way the representative of the Public Service Commission was able to get a first hand view of the premises, which will enable him to conduct the hearing with a view of getting immediate results. It is hoped to have all the differences ironed out during the next few months so that the work can be contracted for and placed under way during the coming year.

Dale Davis, janitor at the borough building who underwent an operation at the Charleroi-Monessen hospital some days ago, has so far recovered as to be able to return to work on Wednesday.

was honorably discharged. He is an expert rifleman and sharpshooter and has certificates for both. He had not been in the United States for five and one-half years, three and one half years being spent in Japan, China and Philippine Islands, and two years in Siberia. The young couple will make their home with the groom's parents.

SOUND SUGGESTION FROM FARMERS

"To the lay mind, there seems to be sound reasoning in support of the suggestion of a convention of farmers at Salina, Kansas, proposing a plan for helping to relieve the car shortage," declares the Republican Publicity Association in a statement issued today through the President of that organization Hon. Jonathan Pournie, Jr. Continuing, the statement says:

"The resolutions adopted contained a clause favoring a law that will compel a railroad to furnish a car within 48 hours after being ordered or pay demurrage equal to the amount of demurrage charged to the shipper for failure to load or unload cars. Some qualifying regulations to guard against injustice in specific instances might be necessary, but the general principle of the plan proposed by the farmers seems to be sound. Imposition of penalties against both carrier and shipper for undue delay would undoubtedly hasten the delivery, loading, transportation and unloading of cars, thus making the present number of cars perform an increased service.

"The measure of penalty proposed seems also to be just. If a railroad be permitted to charge a shipper a certain sum per day for failure to load or unload a car, it would seem equally just, and also in the interest of expedition, to permit the shipper to collect exactly the same charge per day for failure of the railroad to supply the car within a reasonable time after demand. That the shipper should have the right to collect a penalty is even more in the public interest than that the carrier should have the right to collect demurrage, for delay in supplying cars may easily result in enormous loss of perishable commodities—a loss which is felt not only by the individual owner of the goods but by the entire consuming public. If vegetables rot because the farmer cannot get cars, the loss falls primarily upon farm owners, but indirectly upon consumers who must pay higher prices than result from diminished supply.

"In connection with this proposal of Kansas farmers, it is interesting to note a paragraph in the 'Bache Review,' published by J. S. Bache & Co., of New York, under the heading, 'Last Winter's Grain Blockade.' After stating that it was impossible to get grain out of the country because the railroads were unable to carry it—the roads at that time being under government operation—the Review says: 'We have heard from unofficial sources that this blockade was not due altogether to shortage of transportation per se, but that the United States Grain Corporation did not wish at that time to be swamped with wheat at high prices which it would have been compelled to pay, and consequently enlisted the cooperation of the Railroad Administration, so that shipments would not be facilitated.'

"Whether the Railroad Administration failed to hasten grain shipments in order to accommodate the doubt, but there is no doubt that under either government or private ownership or operation every legal provision should be made for protection of shippers against an injustice of that kind. In view of its record, one would suspect the Wilson administration of almost any act that would serve its desires. An administration that could seize the ocean cables after the armistice and give war emergency as a reason, is capable of any act that can be imagined.

"Whether or not the Railroad Administration lagged a little in order to favor the grain Administration, the fact is that it had the power to do so, and the plan proposed by the Kansas farmers would seem to be a protection against lagging of that kind for any purpose. If a railroad were penalized for delay in supplying a car, the operators of the road would have that added inducement to hasten the movement of cars, and, consequently, hasten the handling of goods at the lowest relative cost."

BUILDING COSTS DECLINING.

Building costs are declining, says a financial journal. That is evident from bids recently received for houses first bid on a year ago. In one instance bids just received on over 100 dwellings for an industrial company, are 20 per cent under the lowest bid obtained last fall. The lower cost is due to reduced prices of materials, and because contractors figure on more efficient work by their men now. The sensible workman realizes that from now on he must do good work or remain idle, and he is going to work as steadily as he can. That is an excellent sign, and if the cost of living comes down considerably it is possible men in the building industry may be working before long on long, steady jobs.

The one unfortunate feature of the present situation is that many people will refrain from building now that cost is declining. They will wait until the cost gets still lower, although nobody knows how far the cost reaction will extend. Just as most folks dislike to buy on a declining market, most people dislike to build even when everything points to lower building costs. Some will feel driven to build soon by necessity, but others are bound to wait, with winter coming on.

In Olathe, Kansas, so many pupils ride to school in automobiles that parking the cars has become a troublesome question. The fathers and mothers of a good many of these boys and girls went to district schools, and for intermediate and secondary instruction were obliged to leave home. But the gasoline engine has made possible the centralization of schools without hardship to pupils, and thus has contributed greatly to the improvement of educational facilities.

TRAVELING OASIS FREED FROM CUSTODY

Unfortunately for Sheriff I. I. Shaw of Fayette county, he felt obliged to let a rich haul of bonded liquor slip through his fingers on Tuesday morning. About 2 o'clock that morning \$50,500 worth of choice liquor, nicely done up in 500 cases, was seized on the mountain east of Uniontown near the second watering trough. Three truck loads of liquor were taken possession of by the county authorities and towed into Uniontown.

The liquor was on its way from the Hamburg distillery, South Brownsville, to its destination in New York State. The man in charge of the caravan, or traveling oasis in the arid desert of Fayette county had four permits, but Sheriff Shaw was "from Missouri" and wanted to know further about the legality of the papers, so he steered the trucks toward the county seat.

At 10 o'clock Tuesday morning the Sheriff's probe reached the bottom, he was satisfied that everything was O. K., and he gave the release of the high sign and sent it on its way rejoicing. The permits were all regular and had been issued last July, the certificates of ownership being beyond question.

A PLAN TO STOP ALL FOREST FIRES

The Pennsylvania Department of Forestry will pay a reward of \$250.00 for information leading to the arrest and conviction of any person or persons setting incendiary forest fires in this State, according to a statement issued by Gifford Pinchot, the chief forester. He has notified all of the forest fire wardens to that effect, and hundreds of posters announcing the reward will be distributed through the State forests by foresters and forest rangers.

Many of the most serious forest fires the State has had were set by persons who believed they were improving the chances of heavy huckleberry crops the following summer by burning over a piece of forest land. Other disastrous forest fires have been set maliciously to "get even" with somebody.

The Department of Forestry has collected \$811.82 from individuals and corporations responsible for starting forest fires during 1920. The amount represents the cost to the State of putting out the fires, but it does not take into account damage to young timber and soil.

FALLOWFIELD AVE.

FIREMEN HAVE CAMPAIGN

Continued from page 1.

Charleroi Lumber company, Greenberg Brothers, George S. Might, Son, the Walton Lumber company and J. E. Masters have been liberal contributors, with excellent prospects for other business men and firms to be equally generous when they are approached on the subject.

The firemen point out that if it were necessary to support a paid department it would cost a great deal more than the price of a new machine. The sum required to purchase a new truck such as the company needs would amount to about 16 per cent of the amount of borough taxes now raised each year, certainly not an exorbitant amount when all benefits are concerned.

The company submits the following list of donations from citizens, the amounts received for services, as well as the funds secured, from prizes and benefits:

WILL CLOSE STORES TO ATTEND RACES
The merchants of Monongahela have agreed to close their stores at 12:30 o'clock Thursday, in order to attend the harness races at the park in the afternoon. A great deal of interest is being taken in these races by Monongahela people and the fact that the stores are to be closed Thursday afternoon, will give the town the appearance of a general holiday.

LIFE WAS A MISERY TO HER

Says this Woman Until Relieved by Lydia E. Pinkham's Vegetable Compound.

Carrollton, Ky.—"I suffered almost two years with female weakness. I could not walk any distance, ride or take any exercise at all without resting. If I swept the floor or did any kind of work it would bring me sickness on. I was weak and languid, had no energy, and found a misery to be under the influence of a good remedy for several months and I was cured. I had read of Lydia E. Pinkham's Vegetable Compound and I tried it. After taking it I found myself stronger and I took six more. I have not had any more trouble in that respect since. I have done all kinds of work and at present am an attendant at a State Hospital and am feeling fine. I have recommended your Vegetable Compound to dozens of my friends and shall always recommend it."—LILLIAN THOMP, 224 S. 6th St., Carrollton, Ky.

PRE-WAR PRICE

Owner leaving town, reason for great sacrifice

\$5,000
worth \$7,500.

Hettleton

Footwear

"The Composite"

Blucher Style of Long-Wearing Glazed Kid.

The Composite is a practical, scientifically built shoe that meets the exact requirements of thousands of men. Being cut two sizes under true heel and instep it affords a remarkable degree of comfort to the wearer.

The Hettleton Composite is a shoe men adopt permanently—it is always "in season."
